(1)

- 25X1 1.   Comment. As compared with the last reported period, the number of heavy-duty flatcars required by the Russians for the shipment of tanks decreased in the Berlin, Greifswald, Schwerin, Cottbus, Magdeburg, and Erfurt railroad districts, and increased in the Halle and Dresden railroad districts. The increased flatcar traffic in the latter two districts is believed to be connected with the large fall maneuver in the Dessau area.
